

## Referral for Rights Restriction Review

### **Instructions for person providing assistance:**

This referral should be completed with the person supported and their family and support network, as they wish. If they have a Substitute Decision Maker (SDM) with authority to make decisions in the area related to the right that is being restricted, then consent must be obtained from them as well. The process should be clearly explained to the person either way. The service provider agrees that any recommendations flowing from the Rights Restriction Review Committee will be shared with the person whose right was assessed regardless of whether they participate in the process or choose to share their personal information.

Name of person experiencing restriction: \_\_\_\_\_

Age: \_\_\_\_\_

Date referral initiated: \_\_\_\_\_

Support model (check one):

Supported Independent Living     Homeshare / Foster

Shift-staffed home     Employment/Day Service

Other: \_\_\_\_\_

**This information will be brought to a group of people called the Rights Restriction Review Committee. The review is designed to ensure your rights are respected. The committee helps us ensure that we are doing the right thing.**

This document is available in alternative formats. For assistance, please contact  
(204) 786-1414

Restriction: (Please identify only one restriction per referral)

How are your rights being limited or restricted - please describe the restriction in detail. What do you think about this restriction? What does it keep you from doing?

Background:

Why is this restriction needed? Provide a brief background of why the restriction was developed (include who was involved ie. Person, family, doctor, support network, psychiatrist, mental health services) Attach relevant data if available.

What else has been tried?

Outline all previous attempts at providing less intrusive support (successful or not).

Was consultation with other community or professional resources sought to try to avoid the use of this restriction? (Explain fully)

Have medical or health related impacts been investigated and resolved?  
(including possible causes from medications)

How long has the restriction been in place? Describe the plan to reduce or eliminate the restriction over time. How long is it anticipated that this restriction will be needed. (Note: referrals without a plan for reduction will be returned without review)

How will this plan be implemented? How will the plan be monitored and documented?

What training have (or will) you, your staff or others responsible for helping with this plan receive?

Have there been any changes in the last 2 years involving your living, work, health, behavior, medications, or major relationships?
